ABOUT THE COVER

As the world becomes more aware of water's finite supply, it's time to perform a cost-benefit analysis. Who decides what to charge for water use? Will higher prices encourage conservation? How should we determine the amount placed on water's price tag?

- 5 **Editor's Message**
Bridging the Gap: Connecting water use and energy consumption.
By John Nicholson
- 40 **Community Spotlight**
Victoria, British Columbia.
By Kathleen Brown

- 6 **Letters** Is fluoride a waste management issue?

FEATURES

- 18 **Café Scientifique**
Can we rely on technology to guarantee future water resources?
Kerry Freek asks the pros.
- 22 **Water by the Barrel**
Convincing homeowners to help avoid stormwater overloads.
By Matt Baumgardner
- 26 **Waste Not, Want Not**
Creating national effluent standards.
By Ian Richler
- 28 **Hidden Treasure**
Mapping groundwater resources in Saskatchewan.
By Priya Montgomery
- 30 **Advancing in Reverse**
Desalination improves with RO updates.
By Cedella E. Beazley
- 32 **Assess This** Strategies for a successful water servicing project.
By Shannon Logan

MINEWATER

- 8 **A Second Chance**
Turning tailings into a viable energy source.
By Andrew Zaverucha
- 10 **Toxic Cocktail** Acid mine drainage treatment.
By David Kratochvil

THE PRICE OF WATER

- 12 **Smart Meters, Smart Investment**
AMI in Miramichi, N.B.
By Raymond Cheung
- 16 **Liquid Assets** Putting a price tag on water.
By Chuck Holt
- 42 **Business Watch** A new source of water business funding.
By James Sbrolla

DEPARTMENTS

- 34 **Bottle Matters** Guest columnist *Elizabeth Griswold* discusses going green in the bottled water industry.
- 36 **Events** AMERICANA, World Water Day, WEAO/OPCEA Symposium, and more.
- 38 **Water News** What's new in the water industry.
